

**Department of Computer Science and Software  
Engineering**

**Model Driven Software Engineering  
COEN-6312**

**DELIVERABLE-1**

**Submitted by:  
TEAM-BLEED BLUE**

**Supervised by:  
Dr. Abdelwahab Hamou-Lhadj**

**Team Name: Bleed Blue****Mission and Vision:**

Our mission is to use Model driven software engineering to highlight the abstract representation of our system. Online Real-Estate system is a web application which proposes to support the Real-estate system where users can buy or sell properties. It also has the information of the software and hardware requirements and hence, it helps in maintaining the software. The demand for on the go software is rising with the advancement of the technology. Our vision is to use MDE (Model Driven Engineering) approach to increase productivity and communication between users and the system.
